Introduction in Dragon1

The Enterprise Collaboration Platform
for BPM and EA Modeling

Management Overview

Revision Date: 1 December 2014

Management Overview of Dragon1

1. What is Dragon1?
2. Why use Dragon1?
3. How does Dragon1 work?
4. How to start with Dragon1?
5. Who uses Dragon1?
6. For what is Dragon1 used now?
7. Where can I meet other people using Dragon1?
8. What do products made in Dragon1 look like?
9. Where can I find training, support and help?
10. How can I contact Dragon1?

1. What is Dragon1?

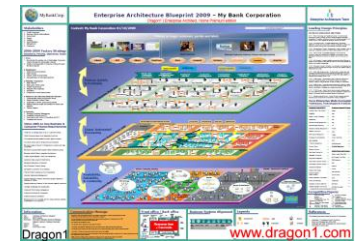

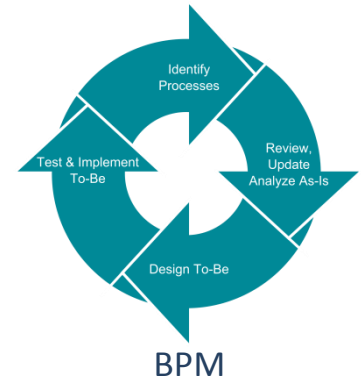

Dragon1 is an Enterprise Collaboration Platform

Dragon1 is an Enterprise Collaboration Platform for BPM and EA Modeling.

A benefit of Business Process Modeling (BPM) is redesign for efficiency in work.

A benefit of Dragon1 Enterprise Architecture (EA) Modeling is more visual risk control over strategy development, organization innovation and business changes in projects.

A benefit of an Enterprise Collaboration Platform (ECM) is people working much more efficient together via the internet.

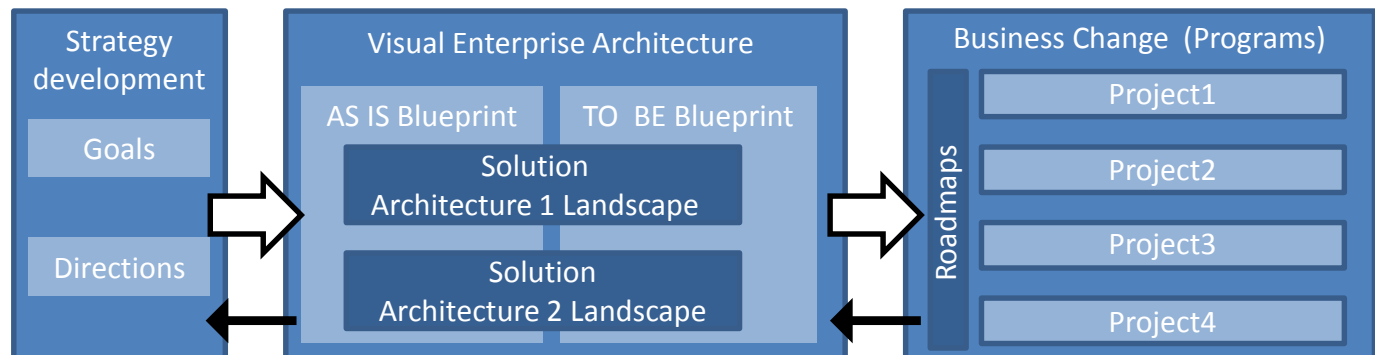

2. Why use Dragon1?

Dragon1 supports you to innovate the organization to get ready for the future or ready to export

Dragon1 supports you as CxO, Manager and Architect in bridging the gap between strategy development and business change (via projects) with Visual Enterprise Architecture. Giving much more visual risk control over projects and strengthen the strategy. Dragon1 has a unique innovative approach for Architecture Principles making it all the work.

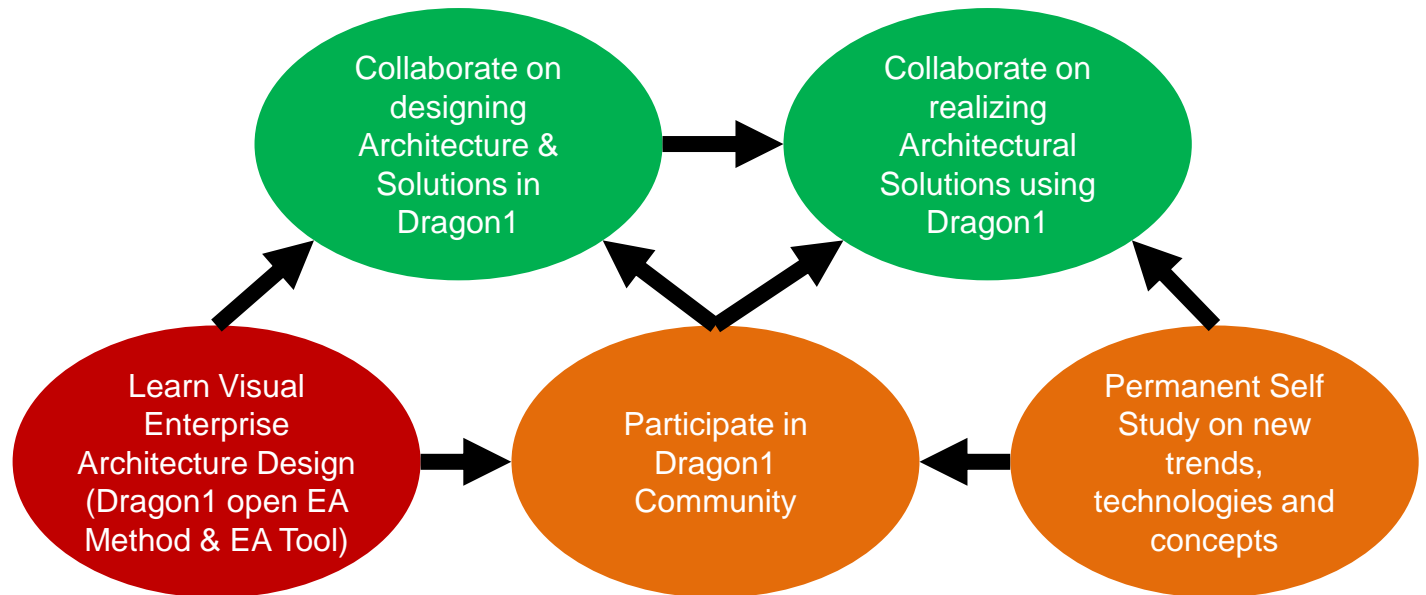

Dragon1 Enterprise Performance Framework

3. How does Dragon1 work?

Dragon1 supports people in the design & realization of strategic solutions to innovate the organization

Dragon1 EA Method & Dragon1 software enable users to collaborate in the design & realization of architecture and solutions. The Dragon1 Community stimulates people to gain and share knowledge. This is how Dragon1 works.

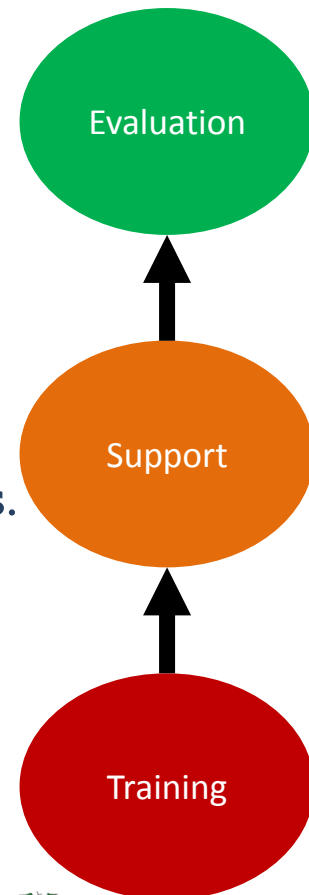

4. How to start with Dragon1?

Dragon1 has a Getting Started Procedure that works for everyone. Tangible results within weeks

The Dragon1 Getting Started Procedure is as follows:

1. 1 to 5 persons of an organization choose to evaluate Dragon1 for one year and participate in Dragon1 community user group events.
2. The persons are supported by the service desk in creating a set of 12 architecture baseline products.
3. They follow the Dragon1 EA Tool & Method Basic User Training including reading the Dragon1 Fundamentals Text book, creating their own architecture e-Portfolio and optionally certify themselves.

5. Who uses Dragon1?

People concerned with innovation of the organization benefit from using Dragon1

- **CxOs**
 - Making decisions using architecture designs, visualizations & reports created in Dragon1
- **Managers: Business & IT**
 - Using dashboards and analytics, entering management data and providing feedback interactively on designs and visualizations in Dragon1
- **Architects for Enterprise, Business, IT & Solution**
 - Creating architecture designs, models and visualizations in Dragon1
- **Auditors, Policy workers, Analysts, Designers & Consultants**
 - Creating designs, audits, reviews, management report views in Dragon1
- **Systems Engineers, Programmers & Administrators**
 - Build & monitor solutions using designs in Dragon1

6. For what is Dragon1 used now?

Today Dragon1 is an upcoming method and tool for BPM and EA Modeling

Dragon1 is now mainly used for visual risk control in projects and to measure enterprise performance. With Dragon1 Enterprise Architecture Visualizations and Solution Architecture Designs are created and used for effective communication of strategy and business change in projects.

Three example cases are:

Enterprise Architecture Analyses & Design

At a bank the current and future enterprise architecture was visualized using Dragon1

Leading to a common glossary of terms, less miscommunication and better adoption of plans

Solution Architecture Realization in Projects

At a ministry the structure of a project and the architecture of a solution was visualized in Dragon1

Leading to better alignment of activities in the planning and finishing the project on time.

Review of Strategic Program

At an industrial company a program was reviewed and a reference architecture for all projects was created.

Leading to removing gaps in business cases, creating a stronger program plan.

7. Where can I meet other people using Dragon1?

The Dragon1 Community is the place to meet and greet other Dragon1 users and to gain and share knowledge and experience

In several countries on a monthly or quarterly basis dragon1 user group events are organized where you can meet and greet other people using dragon1.

Join

The dragon1 community starts up knowledge creation as continuous process with the ambition to increase the role of enterprise architecture in organization innovation.

Share

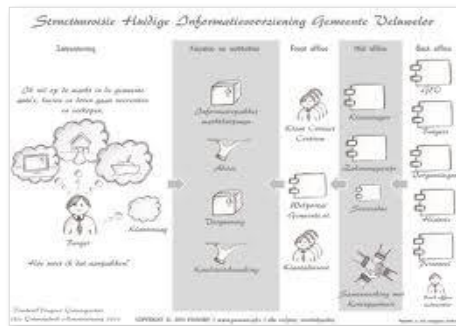

Every participant can join hands-on Dragon1 user sessions or watch 'introduction into' presentations of new trends & technologies and share user experience.

Present

8. What do products made in Dragon1 look like?

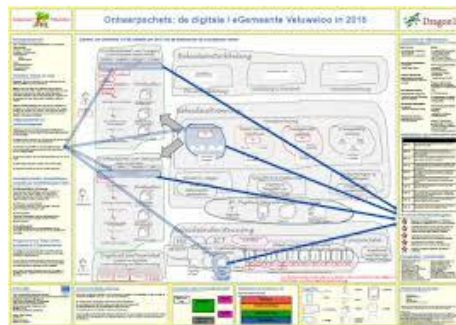

In Dragon1 you can create Static and Interactive Architecture Designs and Visualizations, using Dragon1 EA Method and your knowledge of new solutions

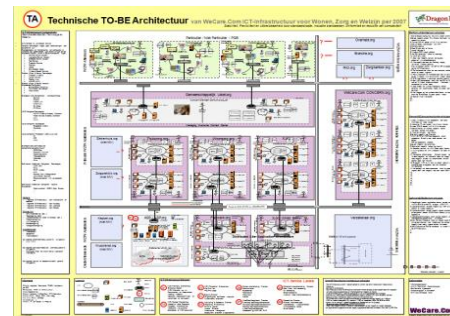

Front-, Mid-, Back- Office Sketch

Layered A0-sized EA Blueprint

Digital Clickable/Interactive Map
Solution Impact of Change on Enterprise

IT Blueprint

In Dragon1 you create and generate in collaboration visual architecture products like:

- enterprise blueprints
- process diagrams
- application landscapes
- technology roadmaps
- clickable capability maps
- Project management Gantt Charts
- MS Word export documents
- MS PowerPoint export documents
- PDF export documents
- and much more...

9. Where can I find training, support & help?

Dragon1 training, support and help can be found easily anywhere on the internet and in the real world

Online resources for Dragon1 are:

1. Dragon1 Inc. - <https://www.dragon1.com>
TIP: *Start with the basic introduction presentations!*
2. Dragon1 as BPM / EA Tool - <https://www.dragon1.com/products>
3. Tutorials - <https://www.dragon1.com/tutorials>
4. eLearning & Class Based Training - <http://academy.dragon1.com>
5. Dragon1 open EA Method - <http://wiki.dragon1.org>
6. Dragon1 Architecture Foundation - <http://www.dragon1.org>

9. How can I contact Dragon1?

You can contact us any time and any day of the week via email

If you want to reach someone of Dragon1, you can choose to use one of the following email addresses and phone numbers:

info@dragon1.com - Dragon1 Community

sales@dragon1.com – Dragon1 User Licenses & Tool Training
Or call +31 (0)317 411 341

servicedesk@dragon1.com – Dragon1 BPM /EA Tool support questions

info@dragon1.org - Dragon1 open EA Method certification
